## Education

**Computer Science, Diploma**  
Acharya Shrimannarayan  
Polytechnique College  
August 2017 - August 2021

**Electronics &  
Telecommunication, B.Tech**  
Bapurao Deshmukh College of  
Engineering  
January 2022 - June 2024

## Technical Skills

Git MongoDB Express.js  
Node.js JavaScript  
RESTful APIs CSS3 HTML5

## Soft Skills

Teamwork Attention to Detail  
Problem Solving  
Effective Communication  
Adaptability Time Management

## Certifications

**Web Developer**   
*Xenos IT Solutions*  
Gained hands-on experience in web development by working on various projects involving the design, development, and maintenance of websites and web applications.

**Data Science**   
*acme grade*  
Contributed to data analysis and predictive modeling projects as a Data Science Intern. Utilized statistical methods, machine learning algorithms, and data visualization techniques to derive insights and support decision-making processes.

**Paper Publication**   
*IRJMET*  
This project is an IoT-based health monitoring system designed to continuously check the real-time health parameters of a patient and display the data on both mobile devices and computers using wireless technology.

# Chetan Chaudhari

Full Stack Web Developer

## Professional Summary

Dynamic and detail-oriented full stack web developer skilled in JavaScript and the MERN stack (MongoDB, Express.js, React.js, Node.js). Proficient in designing scalable web apps and creating efficient APIs. Demonstrates strong problem-solving abilities and the capacity to learn new tech stacks quickly, including Generative AI.

## Experience

- |                           |               |                         |
|---------------------------|---------------|-------------------------|
| <b>Xenos IT Solutions</b> | Web Developer | July 2024 - August 2024 |
|---------------------------|---------------|-------------------------|
- Collaborated with cross-functional teams including designers and product managers to develop functional web applications.
  - Designed and developed efficient server-side APIs using Node.js and Express.js, ensuring seamless integration with frontend.
- |                   |              |                               |
|-------------------|--------------|-------------------------------|
| <b>acme grade</b> | Data Science | September 2023 - October 2023 |
|-------------------|--------------|-------------------------------|
- Developed and optimized machine learning models to improve data analysis and prediction accuracy.
  - Utilized Python and data visualization libraries to create comprehensive reports and dashboards.

## Projects

- E-commerce Web Application** [Live Demo Link](#)
- HTML5 CSS3 JavaScript Node.js Express.js
- Responsive Web Design
- Developed a full-featured web application using Node.js and Express.js to manage product data.
  - Implemented responsive frontend components utilizing HTML5, CSS3, and JavaScript for seamless user experience.
- RESTful API for To-Do List Management** [Github Repo Link](#)
- JavaScript Git Node.js Express.js RESTful APIs
- File System (fs) Module
- Designed and implemented a RESTful API using Express.js to handle CRUD operations for ToDo items.
  - Stored ToDo data in a JSON file (db.json) and managed data fetching, creation, updating, and deletion operations.
- Weather Application** [Live Demo Link](#) [Github Repo Link](#)
- JavaScript RESTful API Git HTML5 CSS3
- Responsive Web Design Node.js Express.js
- Developed a dynamic web application using Node.js and Express.js to display weather information.
  - Implemented API integration to fetch real-time weather data based on user input city names.
- Random Image Generator** [Live Demo Link](#) [Github Repo Link](#)
- Git HTML5 CSS3 JavaScript
- Responsive Web Design
- Integrated Pixabay API to fetch and display images dynamically, enhancing user interaction.
  - Optimized the application to handle data loads efficiently, improving overall performance and stability.
